PROFILE

I'm a Full Stack Developer skilled in React.js, Node.js, PostgreSQL, and Prisma ORM. On the frontend, I build responsive, dynamic interfaces. For the backend, I develop efficient APIs, manage databases for seamless data handling. I am passionate about clean, scalable code, I love building impactful web applications. I am seeking to contribute to impactful projects while gaining hands-on experience and expertise.

WORK EXPERIENCE

PayG   2025
Web Developer
- Built a full-stack web application with responsive UIs, optimized backend APIs, and managed database operations.

Full-Stack Web Developer (Final Year Project) – McPherson University   2025
- Built a Disciplinary Action Record System and a secured database schema for the Student's Disciplinary Committee.

HabariPay   2024
IT System Support Intern
- Collaborated with the IT team to monitor system performance, perform routine maintenance by documenting technical processes and performed escalations on company's payment platform.

Prodigy Infotech   2024
