PROFILE

Full Stack Developer skilled in modern web development and scalable data solutions. I specialize in building responsive, dynamic user interfaces with React.js and developing efficient, secure backend systems with Node.js, PostgreSQL, and Prisma ORM. I am passionate about writing clean, maintainable, and scalable code, and I thrive on creating impactful web applications that deliver real value. I am eager to contribute to innovative projects while continuously expanding my expertise and hands-on experience.

WORK EXPERIENCE

PayG   2025
Full Stack Engineer

- Built a full-stack web application with responsive UIs, optimized backend APIs, and managed database operations.

Full-Stack Web Developer (Final Year Project) – McPherson University   2025
